

Data Media Intro

Data Media

The information technology market now offers a wide and varied range of data media from the 3.5 inch disk through to the latest technology data cartridges.

Customised media for all applications

DCD offers a solution to the supply of customised media for all applications, of course the main area of our work is carried out in the growing markets of CD and DVD printing where since the introduction of our 6 colour screen print facility we have the capability to print up to 4,000 units per hour. This service coupled with our ability to copy from your masters and pack to your specification allows us to provide you with a product produced to your exact specification. Our new high speed digital process printing allows for quick turnaround to meet all applications and has increased our daily capacity to 45,000 units a day.

Highest quality products

As approved distributors for TDK, plus access to media manufactured by World leaders in their field. We are able to guarantee a quality product backed by the technical expertise offered by leading research and development facilities.

Unique and personalised data and printing

We offer a unique service to clients wishing to address the issue of distributing specific or personalised data out directly to a large number of different customers. Direct Corporate Design Ltd can copy data onto the CD/ DVD specific for that particular customer, print personalised details onto the CD and pack and despatch the finished product. This service is used by a number of financial organisations who require client sensitive information sent to each of their customers or agents.

Security & trace ability as well as promotional

Although CD's and DVD's are extensively used in the fields of entertainment, promotional, marketing and the distribution of software, there is a an increasing need for an application where security and trace ability are required. DCD can also offer this facility to customise your product in a secure manner.

Our own branding and security service can also be offered on all other types of media including disks data cartridges, Zip disks, LTO, DLT and Ultrium.
